Re: Pretreatment Program, City of Indianapolis  
NPDES Permit Numbers: IN0023183 & IN0031950  
Order Pursuant to 33 U.S.C. Section 1319(a)

Dear Sirs:

This letter and accompanying attachments constitute the progress report in achieving the May 1, 1984, date for a completed pretreatment program application, in accordance with the requirements stated in the above-referenced Order, which was received by the City of Indianapolis on March 28, 1984. It is our intent to comply with this Order and submit by May 1, 1984, a pretreatment program application to the Indiana State Board of Health and the U.S. Environmental Protection Agency.

According to the March 13, 1984, discussion of Dr. Vicky Keramida of my staff with Ms. Valerie Jones of U.S. EPA V and Mr. Lon Brumfield of ISBH, it is our understanding that the City can proceed with the pretreatment program application to the aforementioned agencies after both agencies have reviewed the items attached to this letter, and prior to the formal enactment of the Sewer User Ordinance by the City-County Council. The attachments include:

1. The proposed Sewer User Ordinance (Sections which were revised to address State/U.S. EPA comments and additional City concerns are marked for your convenience.);
2. The City's response to State and U.S. EPA comments on the interim elements of the Indianapolis Pretreatment Program.

Memorandum  
U.S. EPA/I.S.B.H.  
April 4, 1984
